

Self-service tablet solution for libraries

Tablets have proven to be a wonderful tool for libraries in the new digital age.

Tablets can be used to promote digital reading in its many forms and to offer digital access to those with no possibility of an own device.

Huble^o has made loaning tablets easy and it is now possible for library visitors to check out a tablet with their library card and PIN code. The attractive design makes your digital material visible in the library space.

Tablets in libraries

1. Equal access to the digital world for everyone
2. Promoting digital reading
3. Digital education for senior citizens
4. Language and culture education
5. Creative arts and media education
