

Libretto Compact

The Most Space Saving and Efficient Sorter Available

The Libretto Compact is the most space saving and efficient sorter available. It has been specifically designed to meet the demanding needs of today's library, and to help the library staff free their resources for other tasks other than sorting returned material.

In addition to being extremely efficient, the Compact is also cost-efficient allowing even smaller libraries to gain the benefit of an automated sorter.

The design of the sorter is stylish and strikingly small, allowing installation in just about any library, regardless of available space. The Libretto Compact's low power consumption, superior efficiency and ease of implementation will bring significant benefits for the library and its customers. The Libretto Compact's diminutive footprint serves small and large libraries space requirements.

The Libretto Compact can be installed in public areas, behind staff circulation desks, or in a separate room.

The Libretto Compact can be easily extended by adding extra sorting modules. Each sorting module gives two extra sorting positions. Libretto Compact is controlled and administrated by Libretto 2 software, it is scalable for the libraries future sorting and returning needs.

Libretto Compact uses Libretto 2 software as the user interface. The Libretto 2 uses the newest technology in Microsoft compatible platforms providing new dimensions in the software versatility and features, guaranteeing a long lifetime of use for Libretto 2 in the library. The Libretto 2 software has all the features required by today's market.

› **Small footprint**

› **Extreme low power consumption**

› **Fast and accurate**

› **Modular, easy to extend**

› **Silent**

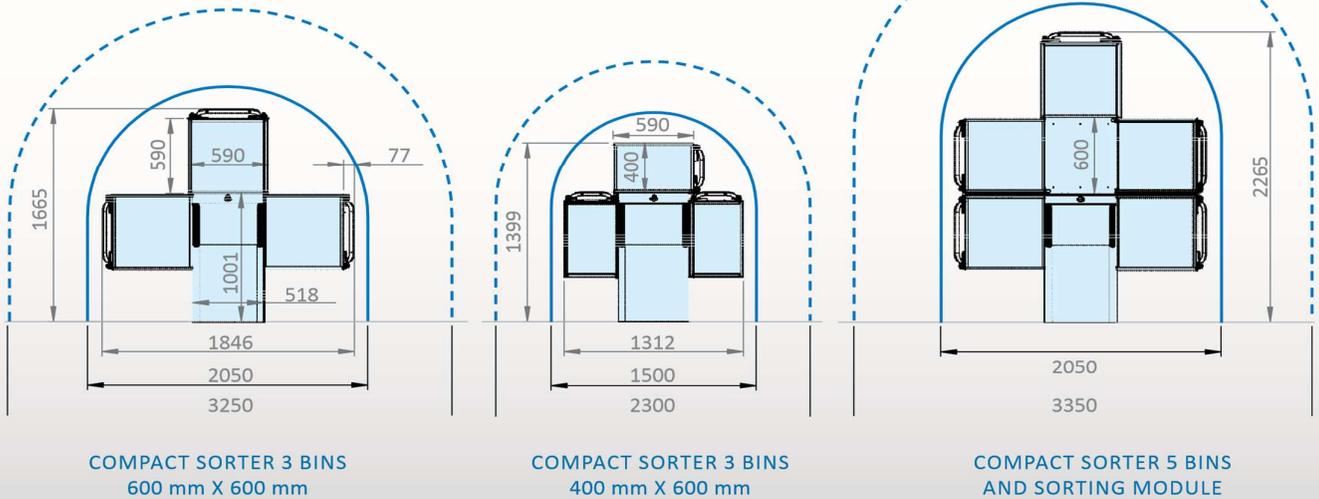

› **User friendly software interface**

LIBRETTO COMPACT

Height 1360 ± 25 mm

----- Recommended work space

— Minimum space requirement

Libretto 2 software has a centralized management system, which allows the settings of each device to be controlled from a staff station or any other computer. A reporting tool is also included, which can be used on any computer to generate statistics reports of any sorter.

The software supports all the Windows unicode languages. Four different languages can be used simultaneously. Libretto Compact supports remote

management. P.V. Supa Inc's automated return units finishing is guaranteed by using high quality materials and hi-tech equipment.

P.V. Supa Inc's automated return units are fully compatible with most common library management systems. Libretto Compact is also compatible with different item identification and security systems.

General:

- › Functions: check in, sorting, offline functionality
- › Item identification: RFID and/or Barcode
- › Security: RFID (AFI/EAS) or EM (Collinear or 3M)
- › RFID Standards: ISO 15693, 18000-3-1
- › Data Models: DDM, KATVE, Tech Logic, TV2, 3M, TRC, ITG, ITG2, ISO28560
- › Modularity: Indoor Hatch, Outdoor Hatch 24H, Staff inlet, easy expandable sorting modules
- › Sorting types: Return Bins 400x600 mm, 600x600 mm and 600x800 mm, Ergo60H trolleys, Index tote, Tote lifter

Compatibility and Programs:

- › Operating system: Windows XP or 7
- › Software: Libretto 2
Easy to use – user interface, Fully modified sorting criteria's, reporting and statistics management, remote management, customized software features, centralized information management system
- › Connectivity: protocol TCP/IP, LMs: SIP 2

Technical Information:

- › Sorting capacity: 1880 items/h
- › Item size:
Min: 50x100x2 mm / 12 g
Max: 350x320x120 mm /12 kg
- › Input Voltage: 100-240 V
- › Power Usage: 300 W
- › Noise level: standby: 36dB, Online: 50-54dB
- › Unit Dimensions: (L x H x W)
1000x1340x515 mm
- › Unit weight: 130 kg / 287 lbs
- › Colors: all RAL colors
- › Certificates: CE
