

# Anywhere Library

## Anywhere Library

With the P.V. Supa's Anywhere Library you can provide 24/7 access to library materials and services at just a fraction of the cost of a new or remodeled building. The intuitive interface provides ease of use for your library customers, allowing them to check out, check in, place and pick up holds, pay fines and fees, download e-books and other digital resources, browse the catalog, and read magazines and newspapers on-line on the 32" infra-red touch screen. With a built in WIFI hotspot library patrons can access resources from their own devices as well.

The Anytime Library is ideal for placement in community centers, shopping malls, hospitals, and transit hubs. The robust design withstands the elements making it perfect for installation at your choice. The Anytime library extends the reach of the

library into your community; wherever people gather the library can be there too. The 450-item capacity allows for creation of targeted collections, from popular materials to children's collections; allowing you to tailor your collection to community needs.

The Anywhere Library is made of cold-rolled steel plate. The book shelf window glass is toughened 8mm glass and is protected by a built-in sun shield. All doors, the loading door, book bin, and bill acceptor door, feature electronic locks.

The unit Anywhere Library utilizes the Supa Extended Library series which includes a maintenance mode and communicates over the industry protocol SiP2/NCIP. This means that all lending traffic is fed back to your library management system.

› Can be placed in any location

› Check out and check in

› No staff needed

› Very easy to use

› Low maintenance

› With relatively small investment you can extend the library's reach

# Product Specifications

Overall	Dimension	3950mm * 1500mm * 2100mm (L*W*H), 155,5*59*82.6 inches
	Net weight	1800kg/ 3968 pounds
	Power in	AC220V/110V, 50Hz, 1500W
	Environment	0°C to 50°C
	Body material	Cold-rolled steel plate
	Book capacity	450 books, size not exceeding 300mm * 240mm * 32mm
	Return capacity	600 books, size not exceeding 350mm * 350mm * 60mm
	Book Shelf window	2000mm * 1000mm, 8mm toughened glass
	Built-in sun shield	●Option SS1: sun shield on the top of operation panel
	Certification	3C
Standards	Book RFID	ISO15693 (HF)
	ID card	STD: CNID ◆Customization DX: Other card(s)
	Card type dispensing	STD ISO15693 + ISO14443A ◆Customization RX: Other card(s), e.g. ISO18000-6C
	ILS/LMS Interface	SIP2 / NCIP
Electronics	Main touch screen	22" 1680*1050 portrait, 1500:1 contrast, infra-red
	Secondary touch screen	9" resistive touch screen
	PC	Quad core intel CPU, 4G DDR3, 128G SSD, Windows 7 Professional x64
	Network	1000M LAN
	Receipt Printer	80mm thermal printer, with cutter
	Patron card dispenser	150 cards capacity
	Bill acceptor	500 bills capacity; cash bin with multiple protections
	Book dispenser	Optoelectronic and mechanical protection from nipping hand
	Book returner	Optoelectronic and mechanical protection from nipping hand. (Book return module is separate from book dispenser) STD: 1 destination sorting ●Option BD2: 2 destinations ●Option BD3: 3 destinations
	CCTV camera	720P x 3, one on operation panel, two on the top of operational panel
	CCTV recorder	720P, 4inputs, 1 VGA output, 2TB HDD
	LED guide	Available in: Receipt printer, bill collector, book return module, book dispenser, patron card dispenser Yes. On book loading door, book bin door, and bill acceptor door.
	Electronic lock	Built-in
	WIFI Hot-spot	32" infra-red touch screen , 1920*1080;
	Newspaper reading screen	PC: Quad core intel CPU, 2G RAM, 64G SSD, Windows 7 Professional x64
