tablet solution for libraries

Self-service tablet solution for libraries

Tablets have proven to be a wonderful tool for libraries in the new digital age. Tablets can be used to promote digital reading in its many forms and to offer digital access to those with no possibility of an own device.

Hublet has made loaning tablets easy and it is now possible for library visitors to check out a tablet with their library card and PIN code. The attractive design makes your digital material visible in the library space.

Features

Always charged and up -to-date

Integrate to the ILS to enable self-service loans

Only works in pre-defined networks

Centralized management of devices and content

End-user information deleted after each use

Tablets are safely locked and the user can be identified
